HP GEAR OIL EP 75W 80

Synthetic Premium Quality Transmission Oil

DESCRIPTION

HP GEAR OIL EP 75W 80 grade is a premium quality synthetic gear and transmission oil specifically designed to address the requirements of transmission systems of modern automobiles. It contains Extreme Pressure additives, which provide outstanding protection and lubrication to gears over a wide temperature range. It utilizes state of the art technology for long service life and for enhanced low temperature performance.

APPLICATIONS

HP GEAR OIL EP 75W 80 grade is suitable for gear boxes and transaxles of new generation vehicles recommending a API GL-4, 75W 80 Oil. They are also recommended for use in transmission system of modern electric vehicles.

PERFORMANCE BENEFITS

- Excellent Fuel Economy
- Excellent low temperature properties
- Unmatched thermal and oxidation stability
- Excellent protection to gear components against wear under varying loads
- Good elastomer compatibility

MEETS OR EXCEEDS REQUIREMENTS OF

- API GL-4
- IS 1118 : 2019

PHYSICO-CHEMICAL PROPERTIES (TYPICAL VALUES)

Kinematic Viscosity @ 100°C, cSt	9.5
Viscosity Index	145
Brookfield Viscosity@-40°C, mPa/s	60400
Pour Point, °C	-42
Flash point (COC), °C	204
