HP NATURAL GAS ENGINE OIL M 40

Mid Ash Natural Gas Engine Oil

DESCRIPTION

Engines running on sour gas require a high TBN, because sour gases on combustion produce strong acids.

HP NATURAL GAS ENGINE OIL M 40 is a mid ash natural gas engine oil with higher TBN for stationary applications.

APPLICATION

Recommended for stationary DG sets running on sour gas (Landfill & Sewage) requiring mid ash (0.6% wt to 1% wt.)

Also recommended for superior & lean burn Waukesha engines

FEATURES & BENEFITS

- Good control on oxidation & nitration
- Exceptional control on deposits & wear

MEETS REQUIREMENTS OF

API-CF

PHYSICO-CHEMICAL PROPERTIES (TYPICAL)

Kinematic Viscosity, @ 100°C, cSt	15
Viscosity Index	100
Flash Point, (COC) °C	215
Pour Point, °C	-12
Sulphated Ash, %wt	0.8
TBN, mg KOH/g	7.5
