## HP NEOSYNTH PLUS 0W-20

Super Premium Synthetic Engine Oil for  
Modern Cars

### DESCRIPTION

HP NEOSYNTH PLUS 0W-20 grade is a high quality Synthetic Engine Oil specifically designed for modern Petrol Cars.

HP NEOSYNTH PLUS 0W-20 is manufactured from a synergistic blend of high quality Group III and Group IV (PAO) base stocks and state of art additive technology to meet the most stringent requirements of API SN, ILSAC GF-5.

HP NEOSYNTH PLUS 0W-20 provides exemplary benefits in reduction of piston deposits, improved Fuel Economy benefits and after treatment compatibility.

### APPLICATIONS

HP NEOSYNTH PLUS 0W-20 grade is specifically developed in line with the requirements of low viscosity engine oil for Japanese and Korean auto manufacturers like Maruti Suzuki, Honda, etc. It is also recommended for all new generation petrol cars.

### FEATURES & BENEFITS

- Unmatched reduction in piston deposits
- High fuel efficiency
- Improved after-treatment compatibility
- Improved protection against sludge
- Low oil top-up
- Longer engine life

### MEETS REQUIREMENTS OF

- API SN
- ILSAC GF-5

### PHYSICO-CHEMICAL PROPERTIES (TYPICAL)

Kinematic Viscosity @ 100°C, cSt	9.0
Viscosity Index	160
CCS, @ -35°C, cP	5600
TBN, mg KOH/gm	7.5
Pour Point, °C	-36
Flash Point, COC, °C	224
