

HP RACER SYNTH 10W-30

SUPER PREMIUM QUALITY SYNTHETIC 10W-30 MOTOR CYCLE ENGINE OIL

DESCRIPTION

HP RACER SYNTH 10W-30 is a super premium quality motor cycle engine oil formulated on synthetic technology with the most advanced additive chemistry.

The synthetic technology in HP RACER SYNTH 10W-30 is the key in providing unmatched Fuel Efficiency, lower oil consumption and superior film strength while lubricating the modern bikes with high power densities and elevated temperatures of operation. The cutting-edge-technology additive chemistry boosts the oil performance in rendering excellent engine cleanliness, high protection to the engine and transmission while ensuring a smooth clutch operation, vital for rapid pick-up.

APPLICATIONS

HP RACER SYNTH 10W-30 is recommended for new generation fuel efficient geared 4- stroke bikes requiring a 10W-30 grade engine oil.

HP RACER SYNTH far exceeds the requirements of the bikes manufactured by HMSI, Hero MotoCorp, TVS, Bajaj etc. It's also recommended for other 4-stroke geared bikes requiring a 10W-30 viscometric oil.

FEATURES & BENEFITS

- Unmatched fuel efficiency
- Excellent control on engine deposits
- Superior protection to gears
- Longer engine life
- Ensures smooth wet-clutch operation for better pick-up
- Longer oil life
- Lower oil consumption

MEETS REQUIREMENTS OF

- API SN
- JASO MA2

PHYSICO-CHEMICAL PROPERTIES (TYPICAL)

Kinematic Viscosity @ 100°C, cSt	11.2
Viscosity Index	145
CCS Viscosity, @ -25 °C, cP	5,000
Flash Point, COC, °C	240
Pour Point, °C	-30
