

LUBRICANTS™

POWER TO PERFORM™

HP UNIPRO 38

TEXTILE OILS

DESCRIPTION

Light coloured finishing oil, forming a milky white emulsion with water. The emulsion readily mixes with almost all kinds of conventional sizing ingredients.

APPLICATION AREAS: All kinds of textile fabrics as softening and finishing oil.

PHYSICO-CHEMICAL PROPERTIES

PROPERTIES	TYPICAL VALUES
Emulsion Test	Pass
Low Temperature Emulsion Stability Test	Pass
Kinematic Viscosity, cSt, @ 40°C	23
Heat Stability @ 70 °C, 2Hrs	Passes
Ph Of Emulsion, 3 g/Litre (In Soft Water)	6.8-8.2
Appearance	Bright & Clear

PERFORMANCE BENEFITS:

- Good lubricity
- Oxidation stability
- Acceptable odour
- Easy removability
- Excellent softening properties
